Name of the Game

Destiny 2

Date

02/16/2020

Session 1: Before Playing | 15-30 minutes

Answer the Questions

I have never played MMOs before, so I'm excited to try something new, but quite hesitant to play in an environment where other players are more skilled and experienced. I don't want to enter any battles at first and I hope that there will be space and time for me to learn how to play. I don't want to be killed off right away every time before I figure out what's going on.

The premise sounds interesting. I'm a sucker for anything Sci-fi. I like the idea of being a protector or guardian, especially with the classic good vs evil story.

I think I'll be able to customize my avatar, which I am looking forward to. I do hope there are multiple options and it's not solely a freemium thing. I read that I will need to pick which type of character I am, but I don't quite know what's advantageous to being a Titan, Warlock or Hunter. I think I'll pick what best fits my personality and go from there. I don't know if the storylines are different for each type of character or if this is more for the cooperative play element.

Honestly, the last first person shooter game I played was GoldenEye, and I wasn't very good at it, so I'm not going in with much expectation. I like that you could play with or against others, so if I'm not terrible at Destiny 2 too, then hopefully I'll get to enjoy that aspect again. I'm sure my learning curve will be steep since I have no clue how PC game interfaces work. I hear that you either use the arrow keys or "AWSD"?

Session Fieldnotes

I expect to be able to learn how to play and explore the Destiny world. I expect that there will be lots of shooting.
